US UP  
AND  
RUNNING

# We're PRO Managed IT

We know you can't waste time and money waiting for your IT infrastructure to work effectively and efficiently – our **PRO**fessional **Managed IT** services can make all the difference. We're an experienced managed IT services provider of network infrastructure support

solutions for small-to-medium size businesses. Over the years, we've offered manufacturers, service companies, and other businesses our unique blend of professional technical support, reliability, and one-on-one customer service.

## Here's How We're Different

- Our **PRO**fessional **Managed IT** services give you great value in several ways
  - with no long-term contracts.
- You'll never again have to purchase your own network-related hardware: servers, switches, routers or software
  - we'll buy the latest equipment for you.
- You'll never again pay for upgrading the data communications infrastructure we provide you.
  - you'll always enjoy the most advanced systems.
- Stop worrying about network/system redundancy, power and protection issues.
- Eliminate having to pay for certain critical system software\*, anti-virus protection, Barracuda HW/SW spam filter; BDR items; CNA business insurance and data theft protection, to name a few.
- Gain peace of mind that your data back-up & recovery processes are reliable, secure, safe, fast, and accessible from anywhere.
- No more 'finger pointing' issues for managed hosted customers who let us buy and maintain their network-related hardware/software.

\* We are a Microsoft SPLA Partner.

We'll  
Keep  
You Up  
and  
Running

We provide innovative solutions
